

Your source for quality thread inserts, blind rivets, tools and accessories!

PowerCoil® Wire Thread Inserts, Kits & Threading Solutions

The **PowerCoil Wire Thread Insert System®** consists of high quality wire thread inserts, quality high-speed taps, drills and easy-to-use installation tools for the repair of damaged internal threads or creation of strong new internal threads in original equipment. *Bulk insert stock available to MS/NASM and MA standards.*

Lokserts®

Loksert® key-locking thread inserts are used to quickly repair stripped, damaged or worn threads with new stronger threads, or for use in original equipment. **Lokserts®** are easy to install and remove. No special drills, taps or pre-winder tools are required. Their solid, one-piece construction provides a high degree of pull-out strength. Commercial Key Inserts are available in both Lightweight and Heavy Duty styles, and in either Type 303 stainless steel, or carbon steel.

Also available to MS/NAS standards

E-Z LOK® Threaded Inserts for Metal

E-Z LOK® external threads are standard size and pitch to permit the use of standard drills and taps. Will not back out or vibrate loose, and are easy to remove.

Available in bulk and prepackaged kits

CDS Brand Quality Blind Rivets & Tools

Crossroad® offers a wide selection of quality blind rivets and installation tooling. Rivets are available in Open End and Closed End styles as well other specialty styles. Blind rivets are stocked in aluminum, steel, copper and stainless steel configurations. Rivets manufactured to all applicable IFI standards.

Bulk and packaged stock available
